Subject Index, Volume 73, 1994

The page number on which an article begins is listed at the end of that article's title. An article may appear under more than one heading.

Author names are listed alphabetically. Numbers listed after each name are the page numbers of the article(s) on which their name appears.

Page numbers followed by @ represent presentations at the Symposium on "Ethics in Dental Research". Page numbers followed by * represent presentations at the Symposium on "Use of Chemothera-peutic Agents for Caries Prevention."

AADR

(*see* IADR/AADR)

ABO BLOOD GROUP SYSTEM

Immunocytochemical localization of blood group ABH antigens in the human parotid gland. Lantini, M.S. and Cossu, M., 556

ABRASION RESISTANCE

Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

ABRASION

(*see* Tooth Abrasion)

ABSTRACTS

Abstracts, IADR/AADR, 101 to 492
Divisional abstracts, 721 to 1019
Guest editorial: the balance between inclusion and exclusion. Liebow, C., 2

ACETATE

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

ACID ETCHING, DENTAL

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212
Clinical status of ten dentin adhesive systems. Van Meerbeek, B., *et al.*, 1690
Effect of surface etching on the flexure strength and fracture toughness of Dicor® disks containing controlled flaws. Thompson, J.Y. and Anusavice, K.J., 505
Proton probe and acid etching for determining fluoride profiles in porous porcine enamel. Richards, A., *et al.*, 644
Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088
SEM evaluation of the resin-dentin interface with proprietary bonding agents in human subjects. Walshaw, P.R. and McComb, D., 1079
Structural evidence of a sealed tissue interface with a total-etch wet-bonding technique *in vivo*. Tay, F.R., *et al.*, 629

ACIDS

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

ACOUSTIC MATERIALS TESTING

(*see* Materials Testing)

ACRYLIC RESINS

(*see* Resins)

ACTINOBACILLUS ACTINOMYCETEMCOMITANS

Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus*, and *Prevotella nigrescens*. Gmür, R. and Guggenheim, B., 1421

ACTINOMYCES

Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

ADENOSINE TRIPHOSPHATE

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

ADRENERGIC BETA RECEPTOR BLOCKADERS

Effects of the β-adrenoceptor antagonists atenolol and propra-nolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5

ADRENOLYTICS

(*see* Sympatholytics)

AGED

Flow rates of resting whole and stimulated parotid saliva in relation to age and gender. Percival, R.S., *et al.*, 1416
Prevalence of subjective feelings of dry mouth in the elderly. Närhi, T.O., 20

ALDEHYDES

Quantity of remaining double bonds of propanal-containing resins. Peutzfeldt, A., 1657

ALKALINE PHOSPHATASE

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061
Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro*. Groeneveld, M.C., *et al.*, 1588
Transforming growth factor-beta-1 reduces alkaline phosphatase mRNA and activity and stimulates cell proliferation in cultures of human pulp cells. Shirakawa, M., *et al.*, 1509

ALVEOLAR BONE LOSS

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

AMYLASES

Emergence in human dental plaque and host distribution of amylase-binding streptococci. Scannapieco, F.A., *et al.*, 1627
Functional characteristics of atrophic parotid acinar cells from rats after liquid feeding. Scott, J. and Gunn, D.L., 1180

ANIMALS, LABORATORY

Ethical use of animals. Bowen, W.H., 1773@

ANTIBIOTIC RESISTANCE

Criteria for the assessment of adverse effects of chemotherapy on the oral microflora. Sandham, H.J., 692*

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130

ANTIBIOTICS

Criteria for the assessment of adverse effects of chemotherapy on the oral microflora. Sandham, H.J., 692*

Incorporation of bacterial inhibitor into resin composite. Imazato, S., *et al.*, 1437

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641

Procedures for establishing efficacy of antimicrobial agents for chemotherapeutic caries prevention. ten Cate, J.M. and Marsh, P.D., 695*

ANTIBODIES

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

ANTIBODY FORMATION

Factors associated with hepatitis B vaccine response among dentists. Cleveland, J.L., *et al.*, 1029

ANTIGENS

Affinity and specificity of the interactions between *Streptococcus mutans* antigen I/II and salivary components. Hajishengallis, G., *et al.*, 1493

Immunocytochemical localization of blood group ABH antigens in the human parotid gland. Lantini, M.S. and Cossu, M., 556

ANTIMICROBIALS

(*see* Antibiotics)

ANXIETY

(*see* Dental Anxiety)

APATITES

Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462

ARECA

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

ASEPSIS

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

ATENOLOL

Effects of the β-adrenoceptor antagonists atenolol and propranolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5

ATP

(*see* Adenosine Triphosphate)

ATROPHY

Functional characteristics of atrophic parotid acinar cells from rats after liquid feeding. Scott, J. and Gunn, D.L., 1180

AUSCULTATION

Reliability of clinical methods for recording temporomandibular joint sounds, The. Wabeke, K.B., *et al.*, 1157

AXONS

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

Effect of nerve injury on the incidence and distribution of branched pulpal axons in the ferret, The. Foster, E. and Robinson, P.P., 1803

BACTERIA

Criteria for the assessment of adverse effects of chemotherapy on the oral microflora. Sandham, H.J., 692*

Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus,* and *Prevotella nigrescens.* Gmür, R. and Guggenheim, B., 1421

Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

Procedures for establishing efficacy of antimicrobial agents for chemotherapeutic caries prevention. ten Cate, J.M. and Marsh, P.D., 695*

Role of micro-organisms in caries etiology. van Houte, J., 672*

BACTERIAL ADHESION

Affinity and specificity of the interactions between *Streptococcus mutans* antigen I/II and salivary components. Hajishengallis, G., *et al.*, 1493

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615

Emergence in human dental plaque and host distribution of amylase-binding streptococci. Scannapieco, F.A., *et al.*, 1627

BACTEROIDES

Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus,* and *Prevotella nigrescens.* Gmür, R. and Guggenheim, B., 1421

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

BENZOYLARGININE-2-NAPHTHYLAMIDE

Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036

Presence of *Treponema denticola* and *Porphyromonas gingivalis* in children correlated with periodontal disease of their parents. Watson, M.-R., *et al.*, 1636

BETEL

(*see* Areca)

BIOFILMS

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615

BISPHOSPHONATES

(*see* Diphosphonates)

BITE FORCE

Deformation of the human mandible during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56

Direction of bite force determines the pattern of activity in jaw-closing muscles. Mao, J. and Osborn, J.W., 1112

Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228

BLOOD GROUPS

Immunocytochemical localization of blood group ABH antigens in the human parotid gland. Lantini, M.S. and Cossu, M., 556

BONDING, DENTAL

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212

Clinical status of ten dentin adhesive systems. Van Meerbeek, B., *et al.*, 1690

Early tensile bond strengths of several enamel and dentin bonding systems. Burrow, M.F., *et al.*, 522

Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530

Effects of ion sputtering on dentin and its relation to depth profiling, The. Miller, R.G., *et al.*, 1457

Fracture surface characterization of dentin-bonded interfacial fracture toughness specimens. Tam, L.E. and Pilliar, R.M., 607

In vitro bond strengths and SEM evaluation of dentin bonding systems to different dentin substrates. Perdigao, J., *et al.*, 44

Multi-practice clinical study on posterior resin-bonded bridges: a 2.5-year interim report, A. Verzijden, C.W.G.J.M., *et al.*, 529

Quantity of remaining double bonds of diacetyl-containing resins. Peutzfeldt, A., 511

Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

SEM evaluation of the resin-dentin interface with proprietary bonding agents in human subjects. Walshaw, P.R. and McComb, D., 1079

Structural evidence of a sealed tissue interface with a total-etch wet-bonding technique *in vivo*. Tay, F.R., *et al.*, 629

Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

BONE DEVELOPMENT

Pulsating electromagnetic field stimulates mRNA expression of bone morphogenetic protein-2 and -4. Nagai, M. and Ota, M., 1601

BONE LOSS, PERIODONTAL

(*see* Alveolar Bone Loss)

BONE MORPHOGENETIC PROTEINS

Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515

Pulsating electromagnetic field stimulates mRNA expression of bone morphogenetic protein-2 and -4. Nagai, M. and Ota, M., 1601

Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

BONE REMODELING

Articular disc and eminence modeling after experimental relocation of the glenoid fossa in growing rabbits. Pirttiniemi, P., *et al.*, 536

BOOK REVIEWS

Bacterial Adhesion to Cells and Tissues, 1028

BREAST NEOPLASMS

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

BURNING MOUTH SYNDROME

Antecedents of burning mouth syndrome (glossodynia)—recent life events *vs.* psychopathologic aspects. Eli, I., *et al.*, 567

CADAVERINE

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168

CAFFEINE

Lack of significant effect of coffee and caffeine on fluoride metabolism in rats. Chen, X. and Whitford, G.M., 1173

CALCIFICATION, PHYSIOLOGIC

Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro*. Groeneveld, M.C., *et al.*, 1588

CALCIUM

Distribution of protein kinase Ca and accumulation of extracellular Ca^{2+} during early dentin and enamel formation. Bawden, J.W., *et al.*, 1429

Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742

CALCIUM PHOSPHATES

Effects on whole saliva of chewing gums containing calcium phosphates. Chow, L.C., *et al.*, 26

Formation of hydroxyapatite-ionomer cements at 38°C, The. TenHuisen, K.S. and Brown, P.W., 598

Occlusion of dentinal tubules with calcium phosphate using acidic calcium phosphate solution followed by neutralization. Ishikawa, K., *et al.*, 1197

CAMPYLOBACTER RECTUS

Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus,* and *Prevotella nigrescens*. Gmür, R. and Guggenheim, B., 1421

CANINE TOOTH

Chewing performance before and after rehabilitation of post-canine teeth in man. van der Bilt, A., *et al.*, 1677

CANINES

Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515

CAPSAICIN

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

CARBOHYDRATES

Role of micro-organisms in caries etiology. van Houte, J., 672*

CARIOSTATIC AGENTS

Procedures for establishing efficacy of antimicrobial agents for chemotherapeutic caries prevention. ten Cate, J.M. and Marsh, P.D., 695*

Regulation of oral chemotherapeutic products in the United States. Trummel, C.L., 704*

CARTILAGE

Articular disc and eminence modeling after experimental relocation of the glenoid fossa in growing rabbits. Pirttiniemi, P., *et al.*, 536

Effect of mechanical forces on chondrocyte maturation and differentiation in the mandibular condyle of the rat. Kantomaa, T., *et al.*, 1150

CATS

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

CELL WALL

Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742

CEMENTATION

Investigation into the pressure transmitted to the pulp chamber on crown cementation: a laboratory study, An. Wylie, S.G. and Wilson, P.R., 1684

CERAMICS

Effect of surface etching on the flexure strength and fracture toughness of Dicor® disks containing controlled flaws. Thompson, J.Y. and Anusavice, K.J., 505

Fracture surface characterization of clinically failed all-ceramic crowns. Thompson, J.Y., *et al.*, 1824

Isothermal anneal effect on microcrack density around leucite particles in dental porcelain. Mackert, J.R., *et al.*, 1221

Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

CHEMOTAXIS

Mitogenic and chemotactic responses of human periodontal ligament cells to the different isoforms of platelet-derived growth factor. Boyan, L.A., *et al.*, 1593

CHEWING GUM

Effects on whole saliva of chewing gums containing calcium phosphates. Chow, L.C., *et al.*, 26

CHICK EMBRYO

Pulsating electromagnetic field stimulates mRNA expression of bone morphogenetic protein-2 and -4. Nagai, M. and Ota, M., 1601

CHILD

Guest editorial: "Out of the mouths of babes and sucklings....." ...do we still care for the oral health of our children? Curzon, M.E.J., 714

Presence of *Treponema denticola* and *Porphyromonas gingivalis* in children correlated with periodontal disease of their parents. Watson, M.-R., *et al.*, 1636

Saliva composition in Indian children with chronic protein-energy malnutrition. Johansson, I., *et al.*, 11

CHLORHEXIDINE

Potential efficacy of chlorhexidine against mutans streptococci and human dental caries. Emilson, C.G., 682*

CHONDROCYTES

(*see* Cartilage)

CHROMATOGRAPHY, HIGH-PRESSURE LIQUID

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chromatography. Hay, D.I., *et al.*, 1717

CLINICAL TRIALS

Guest editorial: the Cochrane Collaboration: Oral Health Group. Antczak-Bouckoms, A. and Shaw, W.C., 1674

COFFEE

Lack of significant effect of coffee and caffeine on fluoride metabolism in rats. Chen, X. and Whitford, G.M., 1173

COGNITION

Cognitive correlates of dental anxiety. DeJongh, A., *et al.*, 561

COLLAGEN

Structure-property relations and crack resistance at the bovine dentin-enamel junction. Lin, C.P. and Douglas, W.H., 1072

Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

COLLAGENASE

Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523

COMPOSITES

Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530

Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228

Fracture surface characterization of dentin-bonded interfacial fracture toughness specimens. Tam, L.E. and Pilliar, R.M., 607

In vitro bond strengths and SEM evaluation of dentin bonding systems to different dentin substrates. Perdigao, J., *et al.*, 44

Incorporation of bacterial inhibitor into resin composite. Imazato, S., *et al.*, 1437

Indentation cracking of composite matrix materials. Baran, G., *et al.*, 1450

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641

Microfracture mechanisms of dental resin composites containing spherically-shaped filler particles. Kim, K.H., *et al.*, 499

Quantity of remaining double bonds of diacetyl-containing resins. Peutzfeldt, A., 511

Quantity of remaining double bonds of propanal-containing resins. Peutzfeldt, A., 1657

Relationship between cure depth and transmission coefficient of visible-light-activated resin composites, The. Kawaguchi, M., *et al.*, 516

Stress analysis of a bulk-filled class V light-cured composite restoration. Katona, T.R. and Winkler, M.M., 1470

Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

CONCANAVALIN A

Difference in capacity between

macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056

CONFIDENCE INTERVALS

Guest editorial: significance level and confidence interval. Potter, R.H., 494

CONFLICT OF INTEREST

Ethics in research: current issues for dental researchers and their professional society. Frankel, M.S., 1759@

CONTROLLED-RELEASE PREPARATIONS

(*see* Delayed-Action Preparations)

COPYRIGHT

Toward developing a code of ethics. Shah, R.M., 1783@

CORROSION

Release of elements due to electrochemical corrosion of dental amalgam. Olsson, S., *et al.*, 33

CRACKS

(*see* Fractures)

CRANIOFACIAL BONES

(*see* Skull)

CRANIOMANDIBULAR DISORDERS

Rate modulation of jaw-elevator motor units as revealed from the low-frequency power spectrum of the surface electromyogram in myogenous CMD patients. van der Glas, H.W., *et al.*, 1121

Reliability of clinical methods for recording temporomandibular joint sounds, The. Wabeke, K.B., *et al.*, 1157

CROSS REACTIONS

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

CROWNS

Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228

Fracture surface characterization of clinically failed all-ceramic crowns. Thompson, J.Y., *et al.*, 1824

Investigation into the pressure transmitted to the pulp chamber on crown cementation: a laboratory study, An. Wylie, S.G. and Wilson, P.R., 1684

CRYSTALLIZATION

Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462

CURING

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641

Relationship between cure depth and transmission coefficient of visible-light-activated resin composites, The. Kawaguchi, M., *et al.*, 516

CYSTATINS

Cystatins S and C in human whole saliva and in glandular salivas in periodontal health and disease. Henskens, Y.M.C., *et al.*, 1606

CYSTEINE

Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

CYTOTOXICITY

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

DECONTAMINATION

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

DELAYED-ACTION PREPARATIONS

System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833

DENDRITIC CELLS

Difference in capacity between macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056

DENTAL ABUTMENTS

Multi-practice clinical study on posterior resin-bonded bridges: a 2.5-year interim report, A. Verzijden, C.W.G.J.M., *et al.*, 529

DENTAL AMALGAM

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

DMSA administration to patients with alleged mercury poisoning from dental amalgams: a placebo-controlled study. Sandborgh, G., *et al.*, 620

Effects of creep value and occlusal force on marginal adaptation of amalgam filling. Asaoka, K., 1539

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130

Hg emission from dental amalgam as related to the amount of SN in the Ag-Hg (γ_1) phase. Mahler, D.B., *et al.*, 1663

Reduced mercury vapor release from dental amalgams prepared with binary Hg-In liquid alloys. Okabe, T., *et al.*, 1711

Release of elements due to electrochemical corrosion of dental amalgam. Olsson, S., *et al.*, 33

Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

DENTAL ANXIETY

Cognitive correlates of dental anxiety. DeJongh, A., *et al.*, 561

DENTAL ARCH

Deformation of the human mandible during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56

DENTAL CARIES

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

Criteria for the assessment of adverse effects of chemotherapy on the oral microflora. Sandham, H.J., 692*

Effect of frequent consumption of starchy food items on enamel and dentin

demineralization and on plaque pH *in situ.* Lingström, P., *et al.*, 652
Guest editorial: "Out of the mouths of babes and sucklings....." ...do we still care for the oral health of our children? Curzon, M.E.J., 714
Influence of the organic matrix on demineralization of bovine root dentin *in vitro,* The. Kleter, G.A., *et al.*, 1523
Pilocarpine alters caries development in partially-desalivated rats. O'Connell, A.C., *et al.*, 637
Potential efficacy of chlorhexidine against mutans streptococci and human dental caries. Emilson, C.G., 682*
Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727
Procedures for establishing efficacy of antimicrobial agents for chemotherapeutic caries prevention. ten Cate, J.M. and Marsh, P.D., 695*
Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742
Re-analysis of caries rates in a preventive trial using Poisson regression models. Hujoel, P.P., *et al.*, 573
Role of micro-organisms in caries etiology. van Houte, J., 672*
System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833
Within-subject coronal caries distribution patterns: an evaluation of randomness with respect to the midline. Hujoel, P.P., *et al.*, 1575

DENTAL CAVITY PREPARATION

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841

DENTAL CEMENTS

Effect of surface etching on the flexure strength and fracture toughness of Dicor® disks containing controlled flaws. Thompson, J.Y. and Anusavice, K.J., 505
Formation of hydroxyapatite-ionomer cements at 38°C, The. TenHuisen, K.S. and Brown, P.W., 598

DENTAL CEMENTUM

Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro.* Groeneveld, M.C., *et al.*, 1588

DENTAL ENAMEL

Distribution of protein kinase Cα and accumulation of extracellular Ca^{2+} during early dentin and enamel formation. Bawden, J.W., *et al.*, 1429
Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841
Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ.* Lingström, P., *et al.*, 652
Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462
Heat-treatment-induced reduction in the apparent solubility of human dental enamel. Hsu, J., *et al.*, 1848
Orientational micro-Raman spectroscopy on hydroxyapatite single crystals and human enamel crystallites. Tsuda, H. and Arends, J., 1703
Proton probe and acid etching for determining fluoride profiles in porous porcine enamel. Richards, A., *et al.*, 644
Structure-property relations and crack resistance at the bovine dentin-enamel junction. Lin, C.P. and Douglas, W.H., 1072
Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

DENTAL IMPLANTS

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061
Comminution of food with mandibular implant-retained overdentures. Geertman, M.E., *et al.*, 1858
Within-subject comparisons of implant-supported mandibular prostheses: choice of prostheses. Feine, J.S., *et al.*, 1105
Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646
Within-subject comparisons of implant-supported mandibular prostheses: psychometric evaluation. de Grandmont, P., *et al.*, 1096

DENTAL LEAKAGE

Effects of creep value and occlusal force on marginal adaptation of amalgam filling. Asaoka, K., 1539

DENTAL MODELS

(*see* Models, Dental)

DENTAL OCCLUSION

Effects of creep value and occlusal force on marginal adaptation of amalgam filling. Asaoka, K., 1539
Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228
3-D force and moment analysis of repulsive magnetic appliances to correct dentofacial vertical excess. Vardimon, A.D., *et al.*, 67

DENTAL PLAQUE

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748
Criteria for the assessment of adverse effects of chemotherapy on the oral microflora. Sandham, H.J., 692*
Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ.* Lingström, P., *et al.*, 652
Emergence in human dental plaque and host distribution of amylase-binding streptococci. Scannapieco, F.A., *et al.*, 1627
Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus,* and *Prevotella nigrescens.* Gmür, R. and Guggenheim, B., 1421
Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727
Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742
Role of micro-organisms in caries etiology. van Houte, J., 672*

DENTAL PORCELAINS

Effect of grinding and fluoride-gel exposure on strength of ion-exchanged porcelain. Anusavice, K.J., *et al.*, 1444
Isothermal anneal effect on microcrack density around leucite particles in dental porcelain. Mackert, J.R., *et al.*, 1221

DENTAL PULP

Axon reflex vasodilatation in cat dental

pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797
Difference in capacity between macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056
Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841
Effect of nerve injury on the incidence and distribution of branched pulpal axons in the ferret, The. Foster, E. and Robinson, P.P., 1803
Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515
Transforming growth factor-beta-1 reduces alkaline phosphatase mRNA and activity and stimulates cell proliferation in cultures of human pulp cells. Shirakawa, M., *et al.*, 1509

DENTAL PULP CAVITY

Investigation into the pressure transmitted to the pulp chamber on crown cementation: a laboratory study, An. Wylie, S.G. and Wilson, P.R., 1684

DENTAL RESTORATION, PERMANENT

System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833

DENTAL STRESS ANALYSIS

Effects of creep value and occlusal force on marginal adaptation of amalgam filling. Asaoka, K., 1539
Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228
Stress analysis of a bulk-filled class V light-cured composite restoration. Katona, T.R. and Winkler, M.M., 1470

DENTIN

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853
ED-A region-containing isoform of cellular fibronectin is present in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L. and Vaheri, A., 1187
Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652
Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462
Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530
Effects of ion sputtering on dentin and its relation to depth profiling, The. Miller, R.G., *et al.*, 1457
Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515
Occlusion of dentinal tubules with calcium phosphate using acidic calcium phosphate solution followed by neutralization. Ishikawa, K., *et al.*, 1197
SEM evaluation of the resin-dentin interface with proprietary bonding agents in human subjects. Walshaw, P.R. and McComb, D., 1079
Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560
Structure-property relations and crack resistance at the bovine dentin-enamel junction. Lin, C.P. and Douglas, W.H., 1072
Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

DENTIN SENSITIVITY

Occlusion of dentinal tubules with calcium phosphate using acidic calcium phosphate solution followed by neutralization. Ishikawa, K., *et al.*, 1197

DENTIN SOLUBILITY

Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523

DENTIN-BONDING AGENTS

Clinical status of ten dentin adhesive systems. Van Meerbeek, B., *et al.*, 1690
Early tensile bond strengths of several enamel and dentin bonding systems. Burrow, M.F., *et al.*, 522
Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530
Fracture surface characterization of dentin-bonded interfacial fracture toughness specimens. Tam, L.E. and Pilliar, R.M., 607
In vitro bond strengths and SEM evaluation of dentin bonding systems to different dentin substrates. Perdigao, J., *et al.*, 44
Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088
SEM evaluation of the resin-dentin interface with proprietary bonding agents in human subjects. Walshaw, P.R. and McComb, D., 1079
Structural evidence of a sealed tissue interface with a total-etch wet-bonding technique *in vivo*. Tay, F.R., *et al.*, 629

DENTINOGENESIS

Distribution of protein kinase Cα and accumulation of extracellular Ca^{2+} during early dentin and enamel formation. Bawden, J.W., *et al.*, 1429
Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515

DENTINOGENESIS IMPERFECTA

ED-A region-containing isoform of cellular fibronectin is present in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L. and Vaheri, A., 1187

DENTISTRY

Guest editorial: G. V. Black IADR Year of Oral Health lecture, The. Elderton, R.J., 1794
Guest editorial: on expanding the membership base and technology transfer: their interrelation. Sutfin, L., 582

DENTISTS

Factors associated with hepatitis B vaccine response among dentists. Cleveland, J.L., *et al.*, 1029

DENTURE, OVERLAY

Comminution of food with mandibular

implant-retained overdentures. Geertman, M.E., *et al.*, 1858
Within-subject comparisons of implant-supported mandibular prostheses: choice of prostheses. Feine, J.S., *et al.*, 1105
Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646
Within-subject comparisons of implant-supported mandibular prostheses: psychometric evaluation. de Grandmont, P., *et al.*, 1096

DENTURE, PARTIAL

Chewing performance before and after rehabilitation of post-canine teeth in man. van der Bilt, A., *et al.*, 1677
Multi-practice clinical study on posterior resin-bonded bridges: a 2.5-year interim report, A. Verzijden, C.W.G.J.M., *et al.*, 529
Within-subject comparisons of implant-supported mandibular prostheses: choice of prostheses. Feine, J.S., *et al.*, 1105
Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646
Within-subject comparisons of implant-supported mandibular prostheses: psychometric evaluation. de Grandmont, P., *et al.*, 1096

DIACETYL

Quantity of remaining double bonds of diacetyl-containing resins. Peutzfeldt, A., 511

DIAGNOSIS, ORAL

Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036

DIAMINES

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168

DIET, CARIOGENIC

Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652

DIETARY CARBOHYDRATES

Role of micro-organisms in caries etiology. van Houte, J., 672*

DIMERCAPTOSUCCINIC ACID

(*see* Succimer)

DIPHOSPHONATES

Effects of topical administration of a bisphosphonate (risedronate) on orthodontic tooth movements in rats. Adachi, H., *et al.*, 1478
Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523

DMF INDEX

Re-analysis of caries rates in a preventive trial using Poisson regression models. Hujoel, P.P., *et al.*, 573

DNA

Transforming growth factor-beta-1 reduces alkaline phosphatase mRNA and activity and stimulates cell proliferation in cultures of human pulp cells. Shirakawa, M., *et al.*, 1509

DNA DAMAGE

Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

DNA SEQUENCE

Definition of a fundamental repeating unit in streptococcal glucosyltransferase glucan-binding regions and related sequences. Giffard, P.M. and Jacques, N.A., 1133

DRUGS, NON-PRESCRIPTION

Regulation of oral chemotherapeutic products in the United States. Trummel, C.L., 704*

DRY MOUTH

(*see* Xerostomia)

DYES

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841
System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833

EDUCATION, DENTAL

Dental research: strategic alliances and the issue of quality. Sessle, B.J., 1237
Guest editorial: recollections and reflections on dental research in Australia. Brown, T., 1490

ELASTICITY

Indentation cracking of composite matrix materials. Baran, G., *et al.*, 1450
Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

ELDERLY

(*see* Aged)

ELECTROMAGNETIC FIELDS

Pulsating electromagnetic field stimulates mRNA expression of bone morphogenetic protein-2 and -4. Nagai, M. and Ota, M., 1601

ELEMENTS

Release of elements due to electrochemical corrosion of dental amalgam. Olsson, S., *et al.*, 33

EPIDERMAL GROWTH FACTOR-UROGASTRONE

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

EPITHELIAL ATTACHMENT

Characterization of the human junctional epithelial cells directly attached to the tooth (DAT cells) in periodontal disease. Overman, D.O. and Salonen, J.I., 1818

EQUIPMENT CONTAMINATION

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

ESTROGENS

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

ETCHING, DENTAL

(*see* Acid Etching, Dental)

ETHICS, DENTAL

Ethical use of animals. Bowen, W.H., 1773@
Ethics and dental research. Gillett, G.R., 1766@
Ethics in research: current issues for

dental researchers and their professional society. Frankel, M.S., 1759@
Introduction: Symposium on Ethics in Dental Research. Shaw, R.M., 1757@
Publication of research: the ethical dimension. Lynch, A., 1778@
Toward developing a code of ethics. Shah, R.M., 1783@

ETHICS IN PUBLISHING

(*see* Scientific Misconduct)

EUGENOL

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

EXERCISE

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

EXTRACELLULAR MATRIX

Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523

EXTRACELLULAR MATRIX PROTEINS

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061
Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

FACIAL BONES

Relationship between attachment of the superficial masseter muscle and craniofacial morphology in dentate and edentulous humans. Kasai, K., *et al.*, 1142

FAILURE OF DENTAL MATERIALS

Fracture surface characterization of clinically failed all-ceramic crowns. Thompson, J.Y., *et al.*, 1824

FATIGUE

Indentation cracking of composite matrix materials. Baran, G., *et al.*, 1450

FERRETS

Effect of nerve injury on the incidence and distribution of branched pulpal axons in the ferret, The. Foster, E. and Robinson, P.P., 1803

FIBROBLASTS

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050
Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro*. Groeneveld, M.C., *et al.*, 1588
Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

FIBRONECTINS

ED-A region-containing isoform of cellular fibronectin is present in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L. and Vaheri, A., 1187

FIBROSARCOMA

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

FILLERS

Microfracture mechanisms of dental resin composites containing spherically-shaped filler particles. Kim, K.H., *et al.*, 499

FLUORIDE

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615
Lack of significant effect of coffee and caffeine on fluoride metabolism in rats. Chen, X. and Whitford, G.M., 1173
Proton probe and acid etching for determining fluoride profiles in porous porcine enamel. Richards, A., *et al.*, 644

FLUORIDE, TOPICAL

Effect of grinding and fluoride-gel exposure on strength of ion-exchanged porcelain. Anusavice, K.J., *et al.*, 1444

FLUOROSIS, DENTAL

(*see* Mottled Enamel)

FOOD AND DRUG ADMINISTRATION (U.S.)

Regulation of oral chemotherapeutic products in the United States. Trummel, C.L., 704*

FRACTURES

Effect of surface etching on the flexure strength and fracture toughness of Dicor® disks containing controlled flaws. Thompson, J.Y. and Anusavice, K.J., 505
Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530
Fracture surface characterization of clinically failed all-ceramic crowns. Thompson, J.Y., *et al.*, 1824
Fracture surface characterization of dentin-bonded interfacial fracture toughness specimens. Tam, L.E. and Pilliar, R.M., 607
Indentation cracking of composite matrix materials. Baran, G., *et al.*, 1450
Isothermal anneal effect on microcrack density around leucite particles in dental porcelain. Mackert, J.R., *et al.*, 1221
Microfracture mechanisms of dental resin composites containing spherically-shaped filler particles. Kim, K.H., *et al.*, 499
Structure-property relations and crack resistance at the bovine dentin-enamel junction. Lin, C.P. and Douglas, W.H., 1072

GALLIUM

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

GAMMA RAYS

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

GELATINASES

Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

GENDER

(*see* Sex)

GENE EXPRESSION

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chromatography. Hay, D.I., *et al.*, 1717

Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

GENETIC TOXICITY TESTS

(*see* Mutagenicity Tests)

GERMANIUM

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748

GINGIVA

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

Characterization of the human junctional epithelial cells directly attached to the tooth (DAT cells) in periodontal disease. Overman, D.O. and Salonen, J.I., 1818

GINGIVAL CREVICULAR FLUID

Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

GINGIVITIS

Cystatins S and C in human whole saliva and in glandular salivas in periodontal health and disease. Henskens, Y.M.C., *et al.*, 1606

GLASS-IONOMER CEMENTS

Formation of hydroxyapatite-ionomer cements at 38°C, The. TenHuisen, K.S. and Brown, P.W., 598

GLENOID FOSSA

(*see* Mandible)

GLOSSALGIA

Antecedents of burning mouth syndrome (glossodynia)—recent life events *vs.* psychopathologic aspects. Eli, I., *et al.*, 567

GLUCANS

Definition of a fundamental repeating unit in streptococcal glucosyltransferase glucan-binding regions and related sequences. Giffard, P.M. and Jacques, N.A., 1133

GLUCOSYLTRANSFERASES

Definition of a fundamental repeating unit in streptococcal glucosyltransferase glucan-binding regions and related sequences. Giffard, P.M. and Jacques, N.A., 1133

GLUTARALDEHYDE

Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

GLUTATHIONE

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

GLYCERYL METHACRYLATE

Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

GROWTH

Effect of mechanical forces on chondrocyte maturation and differentiation in the mandibular condyle of the rat. Kantomaa, T., *et al.*, 1150

GROWTH FACTORS

Mitogenic and chemotactic responses of human periodontal ligament cells to the different isoforms of platelet-derived growth factor. Boyan, L.A., *et al.*, 1593

HALITOSIS

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168

Clinical characteristics of halitosis: differences in two patient groups with primary and secondary complaints of halitosis. Iwakura, M., *et al.*, 1568

Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036

First International Workshop on Oral Malodor. Rosenberg, M., 586

HARDNESS TESTS

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841

HEAT

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841

Heat-treatment-induced reduction in the apparent solubility of human dental enamel. Hsu, J., *et al.*, 1848

HEMA

[*see* Hydroxyethyl Methacrylate (HEMA)]

HEPATITIS B VACCINES

Factors associated with hepatitis B vaccine response among dentists. Cleveland, J.L., *et al.*, 1029

HIPPOCRATIC OATH

Ethics and dental research. Gillett, G.R., 1766@

HISTATINS

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

HYDROGEN-ION CONCENTRATION

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615

Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652

Occlusion of dentinal tubules with calcium phosphate using acidic calcium phosphate solution followed by neutralization. Ishikawa, K., *et al.*, 1197

Role of micro-organisms in caries etiology. van Houte, J., 672*

System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833

HYDROXYAPATITES

Affinity and specificity of the interactions between *Streptococcus mutans* antigen I/II and salivary components. Hajishengallis, G., *et al.*, 1493

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748

Effect of environmental pH and

fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615
Formation of hydroxyapatite-ionomer cements at 38°C, The. TenHuisen, K.S. and Brown, P.W., 598
Occlusion of dentinal tubules with calcium phosphate using acidic calcium phosphate solution followed by neutralization. Ishikawa, K., *et al.*, 1197
Orientational micro-Raman spectroscopy on hydroxyapatite single crystals and human enamel crystallites. Tsuda, H. and Arends, J., 1703

HYDROXYETHYL METHACRYLATE (HEMA)

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212
Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

IADR/AADR

Abstracts, IADR/AADR, 101 to 492
Dental research: strategic alliances and the issue of quality. Sessle, B.J., 1237
Divisional abstracts, 721 to 1019

Guest editorial: promoting dental research—a view from down under. Townsend, G., 1026
Guest editorial: the balance between inclusion and exclusion. Liebow, C., 2
IADR/AADR council proceedings, general and annual sessions., 1247 to 1387

IGA

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

IMMUNOGLOBULINS

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

INDENTATION

Indentation cracking of composite matrix materials. Baran, G., *et al.*, 1450

INDIUM

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

INFORMED CONSENT

Ethics and dental research. Gillett, G.R., 1766@

ION EXCHANGE

Effect of grinding and fluoride-gel exposure on strength of ion-exchanged porcelain. Anusavice, K.J., *et al.*, 1444

IONS

Effects of ion sputtering on dentin and its relation to depth profiling, The. Miller, R.G., *et al.*, 1457

JAW

Deformation of the human mandible during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56
Direction of bite force determines the pattern of activity in jaw-closing muscles. Mao, J. and Osborn, J.W., 1112
Rate modulation of jaw-elevator motor units as revealed from the low-frequency power spectrum of the surface electromyogram in myogenous CMD patients. van der Glas, H.W., *et al.*, 1121

JAW, EDENTULOUS

Relationship between attachment of the superficial masseter muscle and craniofacial morphology in dentate and edentulous humans. Kasai, K., *et al.*, 1142

JAW, EDENTULOUS, PARTIALLY

Chewing performance before and after rehabilitation of post-canine teeth in man. van der Bilt, A., *et al.*, 1677

JOURNALISM

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130
Publication of research: the ethical dimension. Lynch, A., 1778@

LACTATES

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

LACTOBACILLUS

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615
Role of micro-organisms in caries etiology. van Houte, J., 672*

LACTOPEROXIDASE

Leukocyte myeloperoxidase and salivary lactoperoxidase: identification and quantitation in human mixed saliva. Thomas, E.L., *et al.*, 544

LASERS

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841
Heat-treatment-induced reduction in the apparent solubility of human dental enamel. Hsu, J., *et al.*, 1848

LEUCITE

Isothermal anneal effect on microcrack density around leucite particles in dental porcelain. Mackert, J.R., *et al.*, 1221

LIPID PEROXIDATION

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

LIPOPOLYSACCHARIDES

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

LIPOTEICHOIC ACID

(*see* Teichoic Acids)

MACROPHAGES

Difference in capacity between macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056

MAGNETICS

3-D force and moment analysis of repulsive magnetic appliances to correct dentofacial vertical excess. Vardimon, A.D., *et al.*, 67

MANDIBLE

Articular disc and eminence modeling after experimental relocation of the glenoid fossa in growing rabbits. Pirttiniemi, P., *et al.*, 536
Deformation of the human mandible

during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

MANDIBULAR CONDYLE

Effect of mechanical forces on chondrocyte maturation and differentiation in the mandibular condyle of the rat. Kantomaa, T., *et al.*, 1150

MANDIBULAR PROSTHESIS

Comminution of food with mandibular implant-retained overdentures. Geertman, M.E., *et al.*, 1858

Within-subject comparisons of implant-supported mandibular prostheses: choice of prostheses. Feine, J.S., *et al.*, 1105

Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646

Within-subject comparisons of implant-supported mandibular prostheses: psychometric evaluation. de Grandmont, P., *et al.*, 1096

MASSETER MUSCLE

Direction of bite force determines the pattern of activity in jaw-closing muscles. Mao, J. and Osborn, J.W., 1112

Rate modulation of jaw-elevator motor units as revealed from the low-frequency power spectrum of the surface electromyogram in myogenous CMD patients. van der Glas, H.W., *et al.*, 1121

Relationship between attachment of the superficial masseter muscle and craniofacial morphology in dentate and edentulous humans. Kasai, K., *et al.*, 1142

MASTICATION

Chewing performance before and after rehabilitation of post-canine teeth in man. van der Bilt, A., *et al.*, 1677

Comminution of food with mandibular implant-retained overdentures. Geertman, M.E., *et al.*, 1858

Effect of mechanical forces on chondrocyte maturation and differentiation in the mandibular condyle of the rat. Kantomaa, T., *et al.*, 1150

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646

MASTICATORY MUSCLES

Direction of bite force determines the pattern of activity in jaw-closing muscles. Mao, J. and Osborn, J.W., 1112

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

Rate modulation of jaw-elevator motor units as revealed from the low-frequency power spectrum of the surface electromyogram in myogenous CMD patients. van der Glas, H.W., *et al.*, 1121

Relationship between attachment of the superficial masseter muscle and craniofacial morphology in dentate and edentulous humans. Kasai, K., *et al.*, 1142

MATERIALS TESTING

Microfracture mechanisms of dental resin composites containing spherically-shaped filler particles. Kim, K.H., *et al.*, 499

MAXILLA

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

MERCURY

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130

Hg emission from dental amalgam as related to the amount of SN in the Ag-Hg (γ_1) phase. Mahler, D.B., *et al.*, 1663

Reduced mercury vapor release from dental amalgams prepared with binary Hg-In liquid alloys. Okabe, T., *et al.*, 1711

Release of elements due to electrochemical corrosion of dental amalgam. Olsson, S., *et al.*, 33

MERCURY POISONING

DMSA administration to patients with alleged mercury poisoning from dental amalgams: a placebo-controlled study. Sandborgh, G., *et al.*, 620

METALLOPROTEINASES

Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

METHACRYLATES

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212

Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

METHACRYLOYLOXYDODECYL PYRIDINIUM BROMIDE (MDPB)

Incorporation of bacterial inhibitor into resin composite. Imazato, S., *et al.*, 1437

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641

MICROFRACTURES

(*see* Fractures)

MICROLEAKAGE

(*see* Dental Leakage)

MICROSCOPY

Fracture surface characterization of clinically failed all-ceramic crowns. Thompson, J.Y., *et al.*, 1824

MICROSCOPY, ELECTRON, SCANNING

Characterization of the human junctional epithelial cells directly attached to the tooth (DAT cells) in periodontal disease. Overman, D.O. and Salonen, J.I., 1818

Cytotoxicity of gallium and indium ions compared with mercuric ion. Chandler, J.E., *et al.*, 1554

Effect of surface etching on the flexure strength and fracture toughness of Dicor® disks containing controlled flaws. Thompson, J.Y. and Anusavice, K.J., 505

Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228
Fracture surface characterization of dentin-bonded interfacial fracture toughness specimens. Tam, L.E. and Pilliar, R.M., 607
In vitro bond strengths and SEM evaluation of dentin bonding systems to different dentin substrates. Perdigao, J., *et al.*, 44
Microfracture mechanisms of dental resin composites containing spherically-shaped filler particles. Kim, K.H., *et al.*, 499
SEM evaluation of the resin-dentin interface with proprietary bonding agents in human subjects. Walshaw, P.R. and McComb, D., 1079

MINERALS

Effects on whole saliva of chewing gums containing calcium phosphates. Chow, L.C., *et al.*, 26

MITOGENS

Mitogenic and chemotactic responses of human periodontal ligament cells to the different isoforms of platelet-derived growth factor. Boyan, L.A., *et al.*, 1593

MODELS, DENTAL

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748
Deformation of the human mandible during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56
Procedures for establishing efficacy of antimicrobial agents for chemotherapeutic caries prevention. ten Cate, J.M. and Marsh, P.D., 695*
System for the pH-dependent release of a dye in model dental restorations. Shen, C., *et al.*, 1833
3-D force and moment analysis of repulsive magnetic appliances to correct dentofacial vertical excess. Vardimon, A.D., *et al.*, 67

MODELS, STATISTICAL

Deformation of the human mandible during simulated tooth clenching. Korioth, T.W.P. and Hannam, A.G., 56
Re-analysis of caries rates in a preventive trial using Poisson regression models. Hujoel, P.P., *et al.*, 573
3-D force and moment analysis of repulsive magnetic appliances to correct dentofacial vertical excess. Vardimon, A.D., *et al.*, 67

MOLAR

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

MONOMERS

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641
Quantity of remaining double bonds of propanal-containing resins. Peutzfeldt, A., 1657

MORPHOGENESIS

Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

MOTTLED ENAMEL

Lack of significant effect of coffee and caffeine on fluoride metabolism in rats. Chen, X. and Whitford, G.M., 1173

MOUTH

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168
Clinical characteristics of halitosis: differences in two patient groups with primary and secondary complaints of halitosis. Iwakura, M., *et al.*, 1568
Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036
First International Workshop on Oral Malodor. Rosenberg, M., 586
Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

MOUTH NEOPLASMS

(*see* Oral Neoplasms)

MOUTHWASHES

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748

mRNA

(*see* RNA, Messenger)

MUTAGENICITY TESTS

Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

MYELOPEROXIDASE

(*see* Peroxidases)

MYOFASCIAL PAIN SYNDROMES

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

NEGATIVISM

Cognitive correlates of dental anxiety. DeJongh, A., *et al.*, 561

NERVE CRUSH

Effect of nerve injury on the incidence and distribution of branched pulpal axons in the ferret, The. Foster, E. and Robinson, P.P., 1803

NERVES

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

NEUTROPHILS

Leukocyte myeloperoxidase and salivary lactoperoxidase: identification and quantitation in human mixed saliva. Thomas, E.L., *et al.*, 544

NUTRITION DISORDERS

Saliva composition in Indian children with chronic protein-energy malnutrition. Johansson, I., *et al.*, 11

ODONTOBLASTS

Induction of dentin formation on canine amputated pulp by recombinant human bone morphogenetic proteins (BMP)-2 and -4. Nakashima, M., 1515
Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

ODONTOGENESIS

Distribution of protein kinase Cα and accumulation of extracellular Ca^{2+} during early dentin and enamel

formation. Bawden, J.W., *et al.*, 1429
Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

ODORS

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168
Clinical characteristics of halitosis: differences in two patient groups with primary and secondary complaints of halitosis. Iwakura, M., *et al.*, 1568
Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036
First International Workshop on Oral Malodor. Rosenberg, M., 586

ORAL HEALTH

Guest editorial: G. V. Black IADR Year of Oral Health lecture, The. Elderton, R.J., 1794
Guest editorial: "Out of the mouths of babes and sucklings....." ...do we still care for the oral health of our children? Curzon, M.E.J., 714

ORAL MUCOSA

Eugenol triggers different patho-biological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050
Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043

ORAL NEOPLASMS

Eugenol triggers different patho-biological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050
Genotoxic and non-genotoxic effects of betel quid ingredients on oral mucosal fibroblasts *in vitro*. Jeng, J.H., *et al.*, 1043
Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

ORTHODONTIC APPLIANCES

3-D force and moment analysis of repulsive magnetic appliances to correct dentofacial vertical excess. Vardimon, A.D., *et al.*, 67

ORTHODONTICS

Effects of topical administration of a bisphosphonate (risedronate) on orthodontic tooth movements in rats. Adachi, H., *et al.*, 1478

OSTEOBLASTS

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

OSTEOCALCIN

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

OSTEOGENESIS IMPERFECTA

ED-A region-containing isoform of cellular fibronectin is present in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L. and Vaheri, A., 1187

OSTEOPOROSIS

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

OVARIECTOMY

Maxillary molar extraction decreases stiffness of the mandible in ovariectomized rats. Elovic, R.P., *et al.*, 1735

OVERDENTURES

(see Denture, Overlay)

OVER-THE-COUNTER DRUGS

(*see* Drugs, Non-Prescription)

PAIN

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

PALPATION

Reliability of clinical methods for recording temporomandibular joint sounds, The. Wabeke, K.B., *et al.*, 1157

PAROTID GLANDS

(*see* Salivary Glands, Parotid)

PATENTS

Toward developing a code of ethics. Shah, R.M., 1783@

PEDODONTICS

Guest editorial: "Out of the mouths of babes and sucklings....." ...do we still care for the oral health of our children? Curzon, M.E.J., 714
Guest editorial: pediatric dentistry, research, and the future. Casamassimo, P., 1586

PEPTIDE HYDROLASES

Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523
Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397

PERIODONTAL DISEASES

Characterization of the human junctional epithelial cells directly attached to the tooth (DAT cells) in periodontal disease. Overman, D.O. and Salonen, J.I., 1818
Matrix metalloproteinases (MMP-2 and MMP-9) of the oral cavity: cellular origin and relationship to periodontal status. Mäkelä, M., *et al.*, 1397
Presence of *Treponema denticola* and *Porphyromonas gingivalis* in children correlated with periodontal disease of their parents. Watson, M.-R., *et al.*, 1636

PERIODONTAL LIGAMENT

Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro*. Groeneveld, M.C., *et al.*, 1588
Mitogenic and chemotactic responses of human periodontal ligament cells to the different isoforms of platelet-derived growth factor. Boyan, L.A., *et al.*, 1593

PERIODONTITIS

Cystatins S and C in human whole saliva and in glandular salivas in periodontal health and disease. Henskens, Y.M.C., *et al.*, 1606

PERIODONTIUM

Characterization of the human junctional epithelial cells directly attached to the tooth (DAT cells) in periodontal disease. Overman, D.O. and Salonen, J.I., 1818

PEROXIDASES

Effects of the α-adrenoceptor antagonists atenolol and propranolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5

Leukocyte myeloperoxidase and salivary lactoperoxidase: identification and quantitation in human mixed saliva. Thomas, E.L., *et al.*, 544

pH

(*see* Hydrogen-Ion Concentration)

PHENYL HYDROGEN PHOSPHATE

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212

Self-etching dentin primers containing Phenyl-P. Chigira, H., *et al.*, 1088

PHOSPHOPROTEINS

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

PIGS

(*see* Swine)

PILOCARPINE

Pilocarpine alters caries development in partially-desalivated rats. O'Connell, A.C., *et al.*, 637

PLATELET-DERIVED GROWTH FACTOR

Mitogenic and chemotactic responses of human periodontal ligament cells to the different isoforms of platelet-derived growth factor. Boyan, L.A., *et al.*, 1593

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

POLYMERIZATION CONTRACTION

Stress analysis of a bulk-filled class V light-cured composite restoration. Katona, T.R. and Winkler, M.M., 1470

POLYMORPHISM

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chroma-tography. Hay, D.I., *et al.*, 1717

PORPHYROMONAS GINGIVALIS

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

Presence of *Treponema denticola* and *Porphyromonas gingivalis* in children correlated with periodontal disease of their parents. Watson, M.-R., *et al.*, 1636

POST AND CORE TECHNIQUE

Effects of thermocycling and occlusal force on adhesive composite crowns. Krejci, I., *et al.*, 1228

PRECIPITATION

Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462

PRESSURE

Investigation into the pressure transmitted to the pulp chamber on crown cementation: a laboratory study, An. Wylie, S.G. and Wilson, P.R., 1684

PREVOTELLA

Interdental supragingival plaque—a natural habitat of *Actinobacillus actinomycetemcomitans, Bacteroides forsythus, Campylobacter rectus,* and *Prevotella nigrescens.* Gmür, R. and Guggenheim, B., 1421

Lipopolysaccharide of *Porphyromonas gingivalis* is not antigenically cross-reactive with that of other species, The. Ní Eidhin, D. and Mouton, C., 661

PROLINE

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chromatography. Hay, D.I., *et al.*, 1717

PROPANAL

Quantity of remaining double bonds of propanal-containing resins. Peutzfeldt, A., 1657

PROPIONATES

Acid profiles and pH of carious dentin in active and arrested lesions. Hojo, S., *et al.*, 1853

PROPRANOLOL

Effects of the α-adrenoceptor antagonists atenolol and propranolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5

PROSTAGLANDIN-ENDOPEROXIDE SYNTHASE

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

PROTEIN KINASE C

Distribution of protein kinase Cα and accumulation of extracellular Ca^{2+} during early dentin and enamel formation. Bawden, J.W., *et al.*, 1429

PROTEIN PROCESSING, POST-TRANSLATIONAL

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chromatography. Hay, D.I., *et al.*, 1717

PROTEIN-ENERGY MALNUTRITION

Saliva composition in Indian children with chronic protein-energy malnutrition. Johansson, I., *et al.*, 11

PROTEOLYTIC ENZYMES

(*see* Peptide Hydrolases)

PSYCHOMETRICS

Within-subject comparisons of implant-supported mandibular prostheses: choice of prostheses. Feine, J.S., *et al.*, 1105

Within-subject comparisons of implant-supported mandibular prostheses: evaluation of masticatory function. Feine, J.S., *et al.*, 1646

Within-subject comparisons of implant-supported mandibular prostheses: psychometric evaluation. de Grandmont, P., *et al.*, 1096

PSYCHOPHYSIOLOGIC DISORDERS

Antecedents of burning mouth syndrome (glossodynia)—recent life events *vs.* psychopathologic aspects. Eli, I., *et al.*, 567

PUBLISHING

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130

Publication of research: the ethical dimension. Lynch, A., 1778@

PUTRESCINE

Cadaverine as a putative component or oral malodor. Goldberg, S., *et al.*, 1168

QUALITY CONTROL

Dental research: strategic alliances and the issue of quality. Sessle, B.J., 1237

RABBITS

Articular disc and eminence modeling after experimental relocation of the glenoid fossa in growing rabbits. Pirttiniemi, P., *et al.*, 536

RADIOTHERAPY

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

RANDOM ALLOCATION

Within-subject coronal caries distribution patterns: an evaluation of randomness with respect to the midline. Hujoel, P.P., *et al.*, 1575

RATS

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

Difference in capacity between macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056

Effect of mechanical forces on chondrocyte maturation and differentiation in the mandibular condyle of the rat. Kantomaa, T., *et al.*, 1150

Effects of topical administration of a bisphosphonate (risedronate) on orthodontic tooth movements in rats. Adachi, H., *et al.*, 1478

Formation of afibrillar acellular cementum-like layers induced by alkaline phosphatase activity from periodontal ligament explants maintained *in vitro*. Groeneveld, M.C., *et al.*, 1588

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811
Pilocarpine alters caries development in partially-desalivated rats. O'Connell, A.C., *et al.*, 637
Role of micro-organisms in caries etiology. van Houte, J., 672*
Saliva composition in Indian children with chronic protein-energy malnutrition. Johansson, I., *et al.*, 11

SALIVA, ARTIFICIAL

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748

SALIVARY GLANDS

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503
Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

SALIVARY GLANDS, PAROTID

Effects of the β-adrenoceptor antagonists atenolol and propranolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5
Functional characteristics of atrophic parotid acinar cells from rats after liquid feeding. Scott, J. and Gunn, D.L., 1180
Immunocytochemical localization of blood group ABH antigens in the human parotid gland. Lantini, M.S. and Cossu, M., 556
Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

SALIVARY GLANDS, SUBMANDIBULAR

Effects of the β-adrenoceptor antagonists atenolol and propranolol on human parotid and submandibular-sublingual salivary secretion. Nederfors, T., *et al.*, 5

SALIVARY PROTEINS

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

SALIVATION

Effects on whole saliva of chewing gums containing calcium phosphates. Chow, L.C., *et al.*, 26
Flow rates of resting whole and stimulated parotid saliva in relation to age and gender. Percival, R.S., *et al.*, 1416
Functional characteristics of atrophic parotid acinar cells from rats after liquid feeding. Scott, J. and Gunn, D.L., 1180
Prevalence of subjective feelings of dry mouth in the elderly. Närhi, T.O., 20

SCIENCE

Toward developing a code of ethics. Shah, R.M., 1783@

SCIENTIFIC MISCONDUCT

Guest editorial: "compounding irresponsibility: the unpalatable triad of bad science, bad refereeing and bad journalism." Kurtz, K.S., 1130
Publication of research: the ethical dimension. Lynch, A., 1778@

SECRETION

Functional characteristics of atrophic parotid acinar cells from rats after liquid feeding. Scott, J. and Gunn, D.L., 1180

SEQUENCES, REPEATED

(*see* Repetitive Sequences, Nucleic Acid)

SEX

Flow rates of resting whole and stimulated parotid saliva in relation to age and gender. Percival, R.S., *et al.*, 1416

SKULL

Relationship between attachment of the superficial masseter muscle and craniofacial morphology in dentate and edentulous humans. Kasai, K., *et al.*, 1142

SMEAR LAYER

Bonding to ground dentin by a Phenyl-P self-etching primer. Watanabe, I., *et al.*, 1212
Investigation into the pressure transmitted to the pulp chamber on crown cementation: a laboratory study, An. Wylie, S.G. and Wilson, P.R., 1684

SOCIETIES, DENTAL

Ethics in research: current issues for dental researchers and their professional society. Frankel, M.S., 1759@

SOLUBILITY

Heat-treatment-induced reduction in the apparent solubility of human dental enamel. Hsu, J., *et al.*, 1848

SOLUTIONS

Effect of supersaturation on apatite crystal formation in aqueous solutions at physiologic pH and temperature, The. Ishikawa, K., *et al.*, 1462

SPECTROSCOPY, FOURIER TRANSFORM INFRARED

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

SPECTRUM ANALYSIS

Effects of ion sputtering on dentin and its relation to depth profiling, The. Miller, R.G., *et al.*, 1457
Orientational micro-Raman spec-troscopy on hydroxyapatite single crystals and human enamel crystallites. Tsuda, H. and Arends, J., 1703

STARCH

Effect of frequent consumption of starchy

food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652

STATHERINS

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

STATISTICAL DISTRIBUTIONS

Within-subject coronal caries distribution patterns: an evaluation of randomness with respect to the midline. Hujoel, P.P., *et al.*, 1575

STATISTICAL MODELS

(*see* Models, Statistical)

STATISTICS

Guest editorial: significance level and confidence interval. Potter, R.H., 494

STEATITE

Two-body frictional wear test, A. Wassell, R.W., *et al.*, 1546

STEPTOCOCCUS

Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742

STERILIZATION

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

STETHOSCOPY

(*see* Auscultation)

STOMACH NEOPLASMS

Regulation of PG synthase by EGF and PDGF in human oral, breast, stomach, and fibrosarcoma cancer cell lines. Yang, C.Y. and Meng, C.L., 1407

STREPTOCOCCUS

Definition of a fundamental repeating unit in streptococcal glucosyltransferase glucan-binding regions and related sequences. Giffard, P.M. and Jacques, N.A., 1133

Emergence in human dental plaque and host distribution of amylase-binding streptococci. Scannapieco, F.A., *et al.*, 1627

Influence of incorporation of antibacterial monomer on curing behavior of a dental composite. Imazato, S. and McCabe, J.F., 1641

Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

STREPTOCOCCUS MUTANS

Affinity and specificity of the interactions between *Streptococcus mutans* antigen I/II and salivary components. Hajishengallis, G., *et al.*, 1493

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503

Effect of environmental pH and fluoride from the substratum on the development of biofilms of selected oral bacteria, The. Li, Y.H. and Bowden, G.H., 1615

Incorporation of bacterial inhibitor into resin composite. Imazato, S., *et al.*, 1437

Potential efficacy of chlorhexidine against mutans streptococci and human dental caries. Emilson, C.G., 682*

Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

Role of micro-organisms in caries etiology. van Houte, J., 672*

STRESS, MECHANICAL

Structure-property relations and crack resistance at the bovine dentin-enamel junction. Lin, C.P. and Douglas, W.H., 1072

STRESS, PSYCHOLOGICAL

Antecedents of burning mouth syndrome (glossodynia)—recent life events *vs.* psychopathologic aspects. Eli, I., *et al.*, 567

Cognitive correlates of dental anxiety. DeJongh, A., *et al.*, 561

STRESS ANALYSIS

(*see* Dental Stress Analysis)

SUBMANDIBULAR SALIVARY GLANDS

(*see* Salivary Glands, Submandibular)

SUCCIMER

DMSA administration to patients with alleged mercury poisoning from dental amalgams: a placebo-controlled study. Sandborgh, G., *et al.*, 620

SUCROSE

Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652

SULFIDES

Correlation between the BANA test and oral malodor parameters. Kozlovsky, A., *et al.*, 1036

SURFACE PROPERTIES

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530

Effects of ion sputtering on dentin and its relation to depth profiling, The. Miller, R.G., *et al.*, 1457

SURVIVAL ANALYSIS

Multi-practice clinical study on posterior resin-bonded bridges: a 2.5-year interim report, A. Verzijden, C.W.G.J.M., *et al.*, 529

SWINE

Proton probe and acid etching for determining fluoride profiles in porous porcine enamel. Richards, A., *et al.*, 644

SYMPATHOLYTICS

Physiological regulation of the secretion of histatins and statherins in human parotid saliva. Jensen, J.L., *et al.*, 1811

TECHNOLOGY TRANSFER

(*see* Research)

TEICHOIC ACIDS

Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742

TEMPERATURE

Dye-enhanced ablation of enamel by pulsed lasers. Jennett, E., *et al.*, 1841

Heat-treatment-induced reduction in the apparent solubility of human dental enamel. Hsu, J., *et al.*, 1848

TEMPORAL MUSCLE

Direction of bite force determines the

pattern of activity in jaw-closing muscles. Mao, J. and Osborn, J.W., 1112
Rate modulation of jaw-elevator motor units as revealed from the low-frequency power spectrum of the surface electromyogram in myogenous CMD patients. van der Glas, H.W., *et al.*, 1121

TEMPOROMANDIBULAR JOINT

Articular disc and eminence modeling after experimental relocation of the glenoid fossa in growing rabbits. Pirttiniemi, P., *et al.*, 536
Reliability of clinical methods for recording temporomandibular joint sounds, The. Wabeke, K.B., *et al.*, 1157

TEMPOROMANDIBULAR JOINT SYNDROME

Pain responses to experimental chewing in myofascial pain patients. Dao, T.T.T., *et al.*, 1163

TENSILE STRENGTH

Early tensile bond strengths of several enamel and dentin bonding systems. Burrow, M.F., *et al.*, 522
Effects of dentin surface treatments on the fracture toughness and tensile bond strength of a dentin-composite adhesive interface. Tam, L.E. and Pilliar, R.M., 1530
Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

THERMAL EXPANSION

Isothermal anneal effect on microcrack density around leucite particles in dental porcelain. Mackert, J.R., *et al.*, 1221

TIN

Hg emission from dental amalgam as related to the amount of SN in the Ag-Hg (γ_1) phase. Mahler, D.B., *et al.*, 1663

TITANIUM

Bone cell expression on titanium surfaces is altered by sterilization treatments. Stanford, C.M., *et al.*, 1061

T-LYMPHOCYTES

Difference in capacity between macrophages and dendritic cells from rat incisor pulp to provide accessory signals to Concanavalin-A-stimulated T-lymphocytes. Jontell, M., *et al.*, 1056

TOOTH

Sterilization of teeth by gamma radiation. White, J.M., *et al.*, 1560

TOOTH ABRASION

Effect of grinding and fluoride-gel exposure on strength of ion-exchanged porcelain. Anusavice, K.J., *et al.*, 1444

TOOTH DEMINERALIZATION

Effect of frequent consumption of starchy food items on enamel and dentin demineralization and on plaque pH *in situ*. Lingström, P., *et al.*, 652
Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523
Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742
Tensile properties of mineralized and demineralized human and bovine dentin. Sano, H., *et al.*, 1205

TOOTH GERM

Stage-specific expression of decapentaplegic-Vg-related genes 2, 4, and 6 (bone morphogenetic proteins 2, 4, and 6) during human tooth morphogenesis. Heikinheimo, K., 590

TOOTH MOVEMENT, MINOR

Effects of topical administration of a bisphosphonate (risedronate) on orthodontic tooth movements in rats. Adachi, H., *et al.*, 1478

TOOTH REMINERALIZATION

Quantitative study of calcium binding by isolated streptococcal cell walls and lipoteichoic acid: comparison with whole cells, A. Rose, R.K., *et al.*, 1742

TOOTH ROOT

Influence of the organic matrix on demineralization of bovine root dentin *in vitro*, The. Kleter, G.A., *et al.*, 1523
Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

TOOTH SUPPORTING STRUCTURES

(*see* Periodontium)

TRANSFORMING GROWTH FACTOR-BETA

Transforming growth factor-beta-1 reduces alkaline phosphatase mRNA and activity and stimulates cell proliferation in cultures of human pulp cells. Shirakawa, M., *et al.*, 1509

TRANSLATION, GENETIC

Human salivary acidic proline-rich protein polymorphisms and biosynthesis studied by high-performance liquid chromatography. Hay, D.I., *et al.*, 1717

TREPONEMA DENTICOLA

Presence of *Treponema denticola* and *Porphyromonas gingivalis* in children correlated with periodontal disease of their parents. Watson, M.-R., *et al.*, 1636

TRICLOSAN

Chemostat flow cell system: an *in vitro* model for the evaluation of antiplaque agents. Herles, S., *et al.*, 1748

TRIGEMINAL NERVE

Effect of nerve injury on the incidence and distribution of branched pulpal axons in the ferret, The. Foster, E. and Robinson, P.P., 1803

VASODILATION

Axon reflex vasodilatation in cat dental pulp elicited by noxious stimulation of the gingiva. Sasano, T., *et al.*, 1797

VEILLONELLA

Predominant cultivable flora of sound and carious human root surfaces, The. van Houte, J., *et al.*, 1727

XANTHINE OXIDASE

Eugenol triggers different pathobiological effects on human oral mucosal fibroblasts. Jeng, J.H., *et al.*, 1050

XEROSTOMIA

Change of salivary IgA secretion and caries development in irradiated rats. Takei, T., *et al.*, 1503
Effects on whole saliva of chewing gums containing calcium phosphates. Chow, L.C., *et al.*, 26
Flow rates of resting whole and stimulated parotid saliva in relation to age and gender. Percival, R.S., *et al.*, 1416
Prevalence of subjective feelings of dry mouth in the elderly. Närhi, T.O., 20
